

MEDEL STATEMENT ON JUDGE BEATA MORAWIEC

The CJEU-disabled Disciplinary Chamber of the Polish Supreme court decided on lifting judicial immunity of judge Beata Morawiec and imposing disciplinary charges in the form of suspension and reduction of salary by 50%.

This is a direct and blatant violation of ECJ order of 08.04.2020, suspending the so-called Disciplinary Chamber in the disciplinary proceedings against judges. Consequently, MEDEL does not recognize today's decision, considers Beata Morawiec an active judge and expresses her its full support and solidarity.

This illegal activity must result in immediate action from the European institutions, mainly the European Commission, within its role of guardian of the Treaties, on the basis of art. 260 (2) TFEU. The time for mere expressions of concern is long gone - all red lines have been crossed. We can no longer watch passively the destruction of the European legal system.
